Can a full-time caregiver ever take a break from caring?

- Are you caring for a sick or elderly relative at home?
- Has it been a long, long time since you took time off to relax and rejuvenate?
- Are you on call 24 hours a day?

When you're a "primary home caregiver," it can be hard to find the time for yourself. Call today and book a respite room for your family member and have a great vacation. Call today and plan ahead!

Our center offers a flexible respite care program for families like yours. Respite care allows your elderly family member to spend time in a caring, comfortable environment staffed by health care professionals 24 hours a day. He or she will receive assistance with daily living activities, nutritious meals and, if appropriate, opportunities for recreational activities. All regular medications will be administered and supervised by our skilled nursing staff.

Call today for info and to book a respite room: 802-476-4166
